

TREATMENT MENU

W E L C O M E

Indulge in our range of treatments created to relax and rejuvenate your mind and body, whilst also helping you to achieve your desired results.

RCB Treatments is owned by Dee Salisbury, who is a fully qualified beauty therapist with over 20 years of experience. During this time, Dee has continually kept up to date with the latest trends and technology and will continue to expand on new treatments and products to meet our clients expectations and requests.

Most facials only effect the outer layer of the skin, our aim at RCB Treatments is to address the skin at every level and we use proven medical grade products that incorporate this as well as aiming to give full relaxation whilst achieving amazing results.

Please view our range of treatments in the next pages and do feel free to ask for a free consultation to discuss any requirements you may have.
